

BDC-3140LP DUST COLLECTOR

HEAVY DUTY DUST COLLECTION SYSTEM

The Blastrac BDC-3140LP is a powerful dust collection system designed for the toughest jobs. The Blastrac BDC-3140LP is equipped with a Longopac bagging system, which is easy to mount and handle. Thanks to this system, the operators have no more contact with the dust in their direct vicinity. The Blastrac BDC-3140LP dust collection system is standard equipped with a M-class cartridge filter and it is very versatile.

For a safe, dust free and perfectly clean jobsite Blastrac has designed a full range of consumables and optional items to get the best possible results out of your dust collector.

	Ø 51 MM Ø76 MM
	ENDLESS BAGGING SYSTEM ADJUSTABLE CAPACITY UP TO 25 KG
	LARGE SIZE GRINDERS, SHOT BLASTERS AND SCARIFIERS

USER FRIENDLY

Easy to manoeuvre and transport due to the robust wheels with brake systems. User friendly design, just connect the hose to the dust collector and you are ready to go. When the dust collector is in the down position, it is only 1300mm in height, which makes it easy to transport in small vans.

LIMITED DOWNTIME

Our LongoPac dust collection system allows you to collect the dust in easy to handle packages of 25 kg without dispersing dust. The tube-like bagging system is dust free since the bags are replaced and sealed from the outside – there is no contact with the waste.

SAFE WORKING ENVIRONMENT

Every Blastrac machine should be connected to a Blastrac industrial dust collector. This means that you are able to work dust free, creating a safe working environment.

BAGGING SYSTEM

Our Longopac system allows you to collect the dust in easy to handle packages of 25 kg without dispersing dust. The tube-like bagging system is dust free since the bags are replaced and sealed from the outside – there is no contact with the waste.

DESIGNED TO DEAL WITH HAZARDOUS MATERIALS

The BDC-133HCUD is equipped with a H14 HEPA filter, which makes it perfect for hazardous materials & jobsites. It is an environmentally friendly dust collector that aims to improve the safety of the operators. This dust collector is ideal for asbestos & lead paint removal.

FOR HEAVY DUTY WORK

Our range of medium dust collectors is designed to be connected to our medium surface preparation machines. The high suction power, filter options and large dust bin/bag capacity of these dust collectors ensures that all dust is safely collected.

GREEN TECHNOLOGY

Our dust collectors, like any other Blastrac machine, do not use any chemicals or waste valuable drinking water.
